

## CV of Qianlu Ying

I am currently a fourth year graduate student here. I graduated from Fudan University in China with a master degree in 2011.

### **Research Interests**

Mostly on ethical and political philosophy, particularly theories of justice of Rawls and Marx. Also focus on meta-ethical theories regarding moral realism and constructivism.

### **Recent Progress**

I have almost finished the portfolio papers and started working on the dissertation (though not officially). I am now writing a paper on a critique of the antimoralist reading of Marx's criticism of capitalism.
